# WHY BUY A SIOUX ALL-ELECTRIC CLEANER?

Sioux has been in business continuously since 1939 and started manufacturing All-Electrics nearly 30 years ago. With thousands of units in operation, we believe we have the largest group of satisfied All-Electric customers in the industry.

Sioux All-Electric Cleaners have it all - high dependability, high efficiency and low maintenance. Units are ETL listed to UL-1776 and CAN/CSA C22.2 No. 68-92. Explosion-proof models are available for use in hazardous or potentially explosive environments. These units are also listed to UL-1203 and CAN/CSA C22.2 No. 157-92. Certified by a Nationally Recognized Testing Laboratory to comply with industry safety standards and OSHA requirements.

**No Flames, No Fumes, No Sparks,  
No Gas Lines, No Storage Tanks,  
No Oil Drips, and No Exhaust.**

Water is heated by a resistance type immersion heating element enclosed in a hydrostatically tested -UL recognized vessel. Hook up electric supply and water supply hose, and this machine will maintain a consistent discharge temperature continually during operation.

**No Delays, No Recovery Time,  
No Decreased Water Temperature  
During Usage.**

Your Sioux All-Electric is designed to operate continuously 'round the clock with one pass through the heating vessel. A Sioux All-Electric is conservatively designed, engineered and constructed. All components including pumps, motors, and heating elements are easily maintained and serviceable.

**No Shortcuts When It Comes To Safety!**

We do not take shortcuts when it comes to safety. Shut-off guns are standard on hot and cold pressure washers. An optional steam shut-off gun is available for steam and combination cleaners. The unit will automatically shut-down under low flow, high temperature or high pressure conditions.

**Your Business Is Our Business!**

One-on-one sales and personal service will help you solve your toughest cleaning problems. No sales pressure, just honest information. You must be satisfied. Parts and Service technicians in our factory are available to assist you between 8 a.m. and 4:30 p.m. central time. Most standard parts are stocked and can be shipped the same day when ordered before 11 a.m. central time.

We build equipment to meet your needs. Call us toll-free at 888-763-8833 and find out more about our All-Electric Cleaners or other models. If a standard unit does not fit your application, we will build one that does.
